Educator Shoes!

For Misses and Children!

Many Children's Shoes force the pliable, growing bones and muscles of the feet into unnatural shapes.

Educators correct this fault by being built on nature-shaped lasts, which give the foot perfect freedom, at the same time giving it the proper support.

The oak soles provide lightness, flexibility and wear, while the upper leathers are the highest grade.

We have incorporated some original and exclusive patterns in our Educators this Spring, with the result that they are better than ever, both in appearance and wear.
